Rimouski | Rostock | San Francisco
Santiago | Sète | Split | Toulon

Région BRETAGNE **Brest**

Call for Challenges– each sponsor can bring one challenge, team members and/or data sets

What's a challenge?

- a simple idea or a need of sea users
- a more mature project that needs a boost or special expertise

Who are the challenge's owners?

- Legal entities
- Individual people

What are the criteria to select your challenges?

Scope:

- related to the sea and its preservation (possibility to focus on one or more topics)
- Innovation / new ideas
- Based on the use of data

The owner:

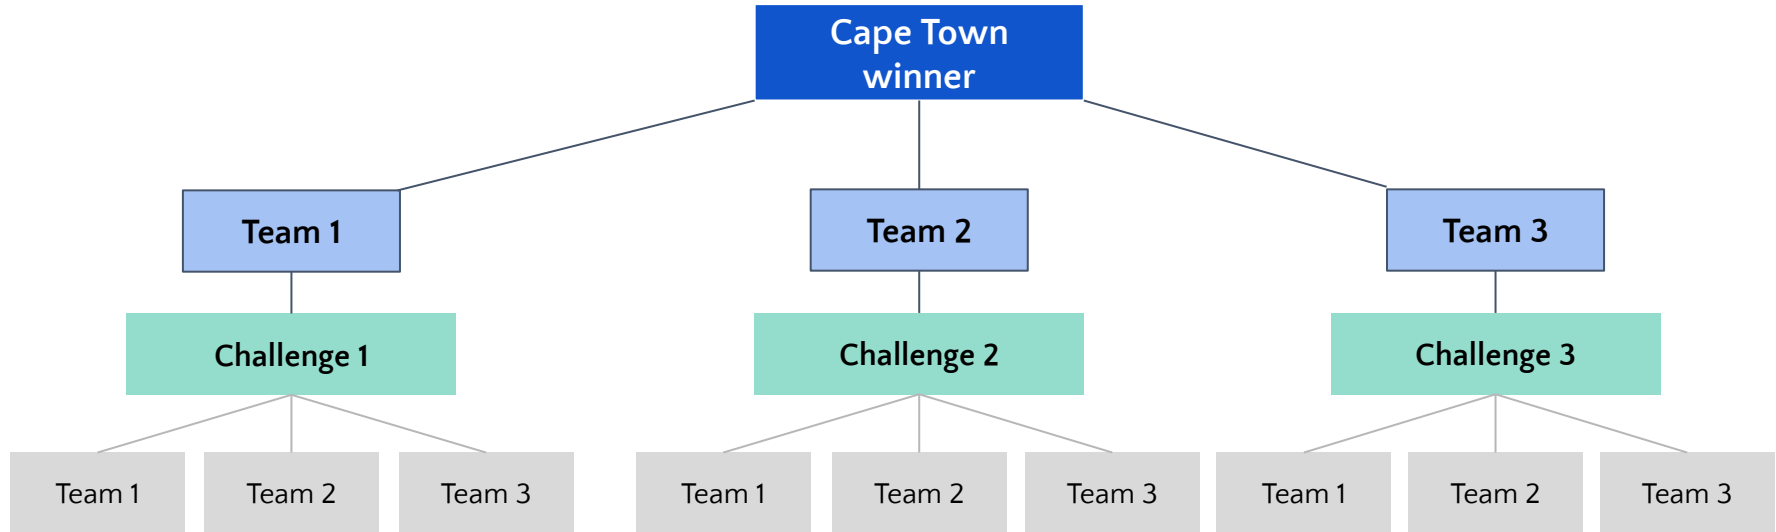

- Agrees the Rules
- Is present during the week-end 
- Register from mid-Sept

You:

- Can decide to limit the number of challenges selected

How does the challenge works

Multiple teams working on each challenge

Team members (3 to 8 per team):

- Data scientists coaching each team
- Ocean professionals
- University students

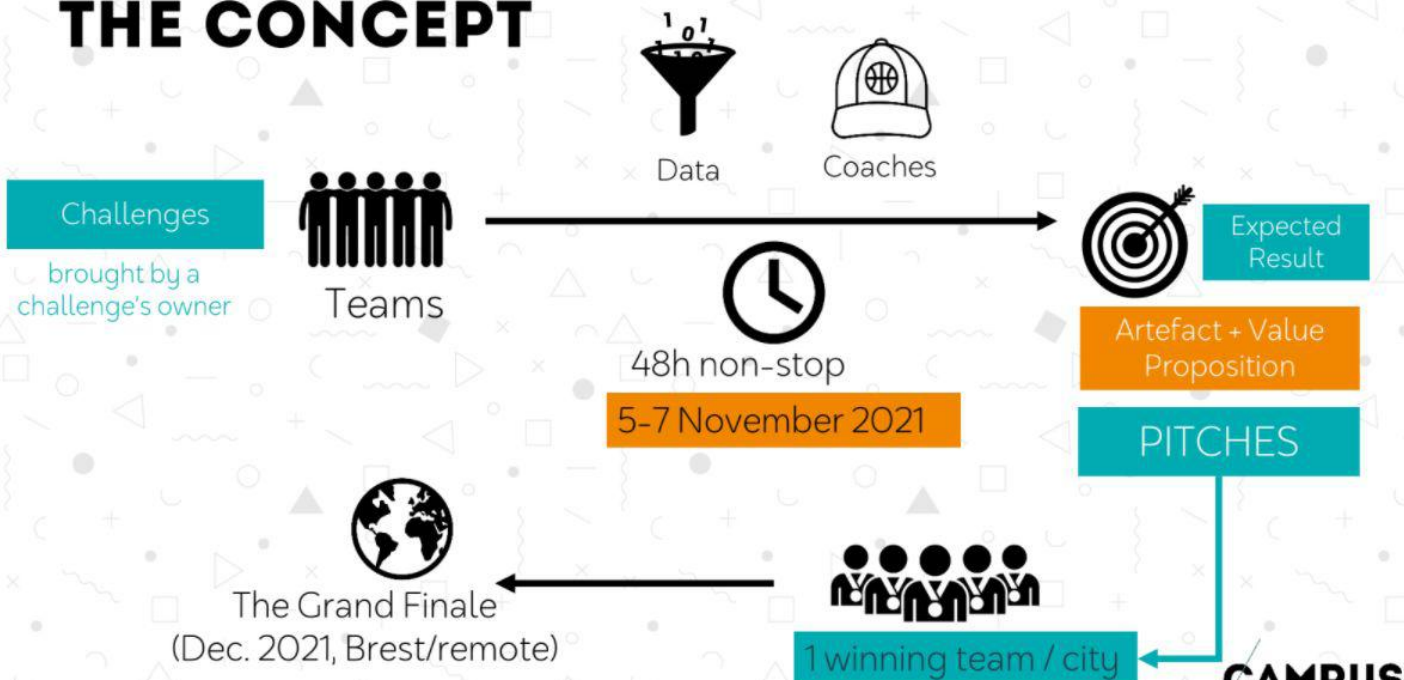

Cities participating in 2021

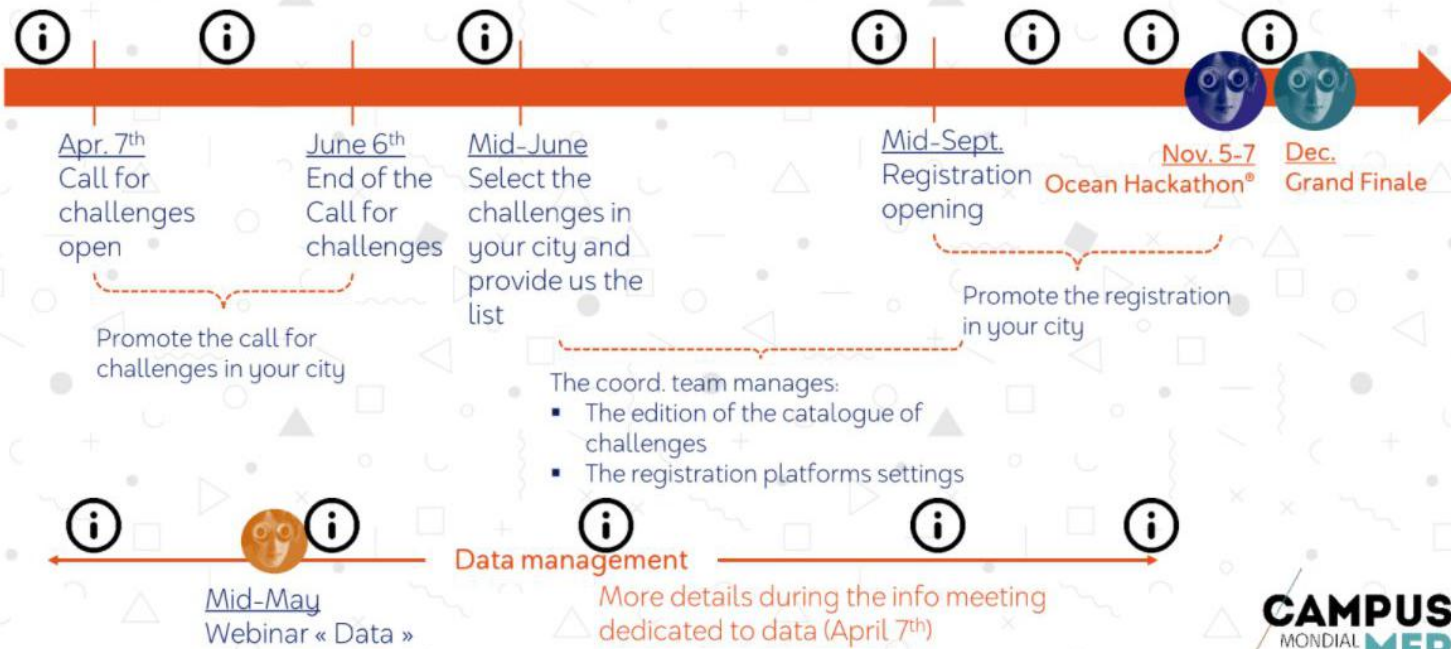

The concept

Ocean Hackathon® information meeting #1
